

Summary of the German Unicycle Hockey League Modus

General

The German unicycle hockey league gives unicycle hockey enthusiasts the opportunity to practice their hobby in a sporty setting. As a result, the league is open to new teams as well as individual players, and encourages everyone to participate in the gaming activity it offers.

Each team has five players on the field. The teams are independent of gender and age. You need a tennis ball, goals and a (three-field) gym with boards. Each player needs a hockey or floorball stick and a unicycle. Free unicycling and mounting with the hockey stick is required.

The rules and the modus can be found on the homepage (www.einrad.hockey) under the tab Modus/Dokumente. This summary does not replace reading the league modus.

Tournaments

Four to eight teams play in a tournament. A tournament usually takes place from 10am to 6pm on Saturday or Sunday. The teams also provide the referees, who can be educated on tournaments during the season.

You can sign up for tournaments anytime. If there are more teams than tournament places, four weeks prior the start of the tournament the playing teams will be determined randomly. Remaining teams will be put on a waiting list. You always sign up voluntarily to advertised tournaments. Up to five of the best tournament results of your team are scored for the championship table. Each team can organize their own tournaments, thus creating a league wide offer. A map of all teams in Germany can be found here: www.einrad.hockey/liga/ligakarte.php

How does it work?

The season runs from August 2020. Dates for the finals are not determined yet. From the beginning to the end of the season you can sign up for 30€ to the league. Afterwards, the team receives their teamcenter login, with which they can register for tournaments, advertise tournaments as hosts directly on the homepage or maintain the team squad.

Each player may play only in one team per season and must be registered in its team's squad. A team may also participate as a non-league team in a tournament without being firmly committed to the league. Non-league teams serve to give newly formed teams the opportunity to participate in the league and to encourage them to join the league. The registration of a non-league team is done via email to the league committee and to the host of the tournament.

Contact

If you are interested in participating in the league or have any further questions, the league committee is always available by email: liga@einrad.hockey
